PROFESSIONAL SUMMARY

BCA 5th Semester student with a strong foundation in Python, Machine Learning, and Data Science. Hands-on experience building classification and regression projects using Pandas, NumPy, Matplotlib, and Scikit-learn, including data cleaning, EDA, preprocessing, feature engineering, model training, and evaluation. Familiar with Generative AI, LLMs, RAG, vector databases, FastAPI, REST APIs, MySQL, and PostgreSQL. Interested in building, evaluating, and deploying ML solutions for real-world applications.

TECHNICAL SKILLS

Programming: Python, Java, C#, SQL

ML / Data Science: NumPy, Pandas, Matplotlib, Scikit-learn, Statistics, Probability, PCA, Data Preprocessing, EDA, Feature Engineering, Classification, Regression, Model Evaluation

AI / Generative AI: LLMs, Generative AI, Prompt Engineering, RAG, Vector Databases, Agentic AI, Model Evaluation

Backend / Deployment: FastAPI, REST APIs

Databases: MySQL, PostgreSQL

Tools: Git, GitHub, Jupyter Notebook, VS Code, Visual Studio

MACHINE LEARNING PROJECTS

Adult Income Prediction | Python, Pandas, Scikit-learn

- Built an end-to-end classification pipeline covering data cleaning, preprocessing, feature preparation, model training, prediction, and evaluation.

House Price Prediction | Python, Pandas, Scikit-learn

- Built a regression pipeline for house-price prediction, applying exploratory data analysis, preprocessing, feature preparation, model training, and evaluation.

Titanic Survival Prediction | Python, Pandas, Scikit-learn

- Built an end-to-end classification project with data cleaning, preprocessing, feature engineering, model training, prediction, and evaluation.

OTHER PROJECTS

- Python Ride-Sharing System | Python — Developed a Python-based ride-sharing system with application logic, functions, validation, exception handling, and structured program flow.
- Student Record Management System | C#, ADO.NET, MySQL — Developed a CRUD-based student record management system with database connectivity and structured data management.

EDUCATION

Bachelor of Computer Applications (BCA), Janamaitri Multiple Campus, Tribhuvan University | 5th Semester | Expected Graduation: 2027
